

# YOUR RADIANCE

Words & Music by Steve Lindsley and Jerry Chapman  
Collegiate Conference at Montreat 2012

C G/B D Em  
Rise up - there's a light upon you  
C G/B D  
You've waited so long  
C G/B D Em  
Wake up - let the sun surround you  
C G/B G  
You are the joyful people now  
Am C D/F#  
When shadows chase all hope away  
Am F  
May the love inside of you illuminate the way

G D  
*We all are searching for the star*  
Em C  
*Right here and now is where we are*  
G D Em C  
*And all we wanna do is to shine your light*  
G D  
*Into the darkness and despair*  
Em  
*To fill his glory everywhere*  
Am G D  
*Let your brilliance brighten up this place*  
C G D  
*With all of your radiance....*

Lift up - lift your eyes and see the crowd  
All want to be with you  
Sons and daughters come from all around  
Like children celebrating...

The nations gather at your side  
Called to live out in the glow  
Shining so that we may know....

*We all are searching for the star...*

C G/B Am D  
From the east - North South West - we gather - we profess  
C G/B  
The dawn has arisen  
Am D  
Just take a look around - won't you take a look around....

*We all are searching for the star...*
